

REPORT MARKS

Following are the final report marks.

Each component of the final report was assessed, then assigned a mark from the rubric on pp. 4-5 of the coursework specification. Each component is worth some number of points, as specified in coursework specification. Scores are obtained by computing the percentage of the component points corresponding to the mark in the assessment criteria for each component, rounded to the nearest whole number.

The total net score is the sum of the component scores.
